

We will tackle two big jobs on Saturday, with some optional smaller jobs:

**Fill gullies in upper parking lot with millings.**

There will be a trailer of millings. We will need to shovel the millings into the gullies, maybe spray a bit of kerosene to bind, then tamp down.

Workers bring:

- Shovels
- Wheelbarrows
- Gloves

**Improve walk to memorial garden.**

There will be a pickup bed of chips, landscape posts to lay across the path, a drill with bit, and rebar to anchor the posts. We will need to place the posts maybe with a bit of digging to fit them to path, and then pound the rebar into the ground. Then we will wheelbarrow the chips onto the path.

Workers bring:

- Shovels
- Wheelbarrows
- Gloves

**Varnish main entrance and bench.**

Varnish the main entry door and put oil on the bench.

Workers bring:

- Wear paint clothes

**Paint rusty handrails.**

Spray paint the rusty handrails. Mask off so we don't paint the concrete steps. Wear a spray paint mask.

Workers bring:

- Wear paint clothes

**Other work.**

There will be other grounds and interior work led by Sylvia.
